CONTENTS

Special Issue: Applied Theoretical Chemistry 1990. Part II
Part I was published in J. Mol. Struct. (Theochem), 230

On geometric measures of chirality
A.B. Buda and K. Mislow (Princeton, NJ, USA) 1
Chirality forces and chiral discrimination
R.G. Woolley (Nottingham, UK) 13
Electron chirality
R.A. Hegstrom (Winston-Salem, NC, USA) 17
Single- and multi-photon circular and elliptical dichroism – the effects of permanent multipole moments and molecular structure
W.J. Meath and A.E. Kondo (London, Ont., Canada) 23
Dyson-type boson mapping for the electron excitation problem in molecules
S. Ohkido (Aichi, Japan) and O. Tanimoto (Osaka, Japan) 43
Second quantization and exchange perturbation theory for intermolecular interactions. The basis set superposition error problem
P.R. Surján and I. Mayer (Budapest, Hungary) 51
The algebraic modelling of chemical structures: on the development of three-dimensional molecular descriptors
Z. Milhalić and N. Trinajstić (Zagreb, Yugoslavia) 65
Static second-order polarizabilities of aminobenzophenones and nitrobenzophenones
C.E. Moore (Huntsville, AL, USA) and B.H. Cardelino (Atlanta, GA, USA) 79
The role of induction forces in infra-red matrix shifts: quantum chemical calculations with reaction field model hamiltonian
Y. Hannachi and J.G. Ángyán (Paris, France) 97
Studies of the linkage and bonding of triatomics in transition metal complexes. Part 2. NCS^- complexes
D.F.-t. Tuan and J.W. Reed (Kent, OH, USA) and R. Hoffmann (Ithaca, NY, USA) 111
An ab initio study of simple 1,3-cyclodisiloxane derivatives
Á. Somogyi, J. Tamás and A.G. Császár (Budapest, Hungary) 123
Rotational barriers for selected polyfluorobiphenyl (PFB), polychlorobiphenyl (PCB) and polybromobiphenyl (PBB) congeners
T.-H. Tang, M. Nowakowska, J.E. Guillet and I.G. Csizmadia (Toronto, Ont., Canada) 133
Novel carbon suboxides and subsulphides (C_5O_2, C_5S_2, C_4O_2 and C_2S_2): assignment of UV and IR spectra by quantum chemical calculations
R. Janoschek (Graz, Austria) 147
Carboxylic acid enols from the hydration of ketenes: a theoretical investigation
J. Andraos, A.J. Kresge, M.R. Peterson and I.G. Csizmadia (Toronto, Ont., Canada) 155
The symmetry group of labile intramolecularly hydrogen-bonded naphthazarin
C.J.H. Schutte, S.O. Paul and D. Röhm (Pretoria, South Africa) 179
Intramolecular hydrogen bonding in 2-aminoethanol, 3-aminopropanol and 4-aminobutanol
A.-M. Kelterer and M. Ramek (Graz, Austria) 189
Ab initio study on thermal dissociation of diazo compounds
F. Wang, M.A. Winnik, M.R. Peterson and I.G. Csizmadia (Toronto, Ont., Canada) 203
Mechanism of stereospecific chlorination of polyene via prolonged chemical doping
K. Akagi, T. Kadokura and H. Shirakawa (Ibaraki, Japan) 211
A refined theoretical investigation of the hydrogen-electrode processes of an alkaline hydrogen–oxygen fuel cell
T.-H. Tang, I.G. Csizmadia, L. Pataki, R.D. Venter and C.A. Ward (Toronto, Ont., Canada) 225

Theoretical analysis of torsional potential functions. Part II. The rotational isomerization of glyoxal and related molecules
C.W. Bock (Philadelphia, PA, USA) and A. Toro-Labbé (Santiago, Chile) 239
A surface topological study of rigid rotor and fully optimized models of methanediol and fluoroethanol
B.D. El-Issa and R.N. Budeir (Safat, Kuwait) 249
On the use of conformationally dependent geometry trends from ab initio dipeptide and oligopeptide studies in empirical peptide modeling
L. Schäfer and S.Q. Newton (Fayetteville, AR, USA), F.A. Momany (Waltham, MA, USA) and V.J. Klimkowski (Indianapolis, IN, USA) 275
The utility of the four-dimensional Ramachandran map for the description of peptide conformations
A. Perczel and M. Kajtar (Budapest, Hungary), J.F. Marcoccia and I.G. Csizmadia (Toronto, Ont., Canada) 291
Prediction of protein secondary structures using a combined method based on the recognition, Lim and Garnier–Osguthorpe–Robson algorithms
S. Thornton, E. San Fabian, S. Fraga, J.M.R. Parker and R.S. Hodges (Edmonton, Alb., Canada) 321
An INDO study of environment effects on the dioxygen position of an oxymyoglobin model
J. Bertran (Barcelona, Spain), M.F. Ruiz-López and D. Rinaldi (Nancy, France) 337

Corrigendum 349
